

WASTE HANDLING SOLUTIONS

Australian-made
bin lifters

Improve waste handling with safe and easy bin lifting

Liftmaster's Australian-made bin lifters enable a single person to safely lift-and-empty wheelie bins into steel skip bins, minimising the risk of injury caused by manually lifting heavy bins above shoulder height.

Bin lifters (lift-and-tilt range)

Model	Lift capacity (kg)	Operation	Dimensions L/W/H (mm)	Bin compatibility		Order code
				Wheelie (litre)	Skip (mm)
