

BLUE RUBBER CASTORS

Premium all-round castors for mixed floor surfaces.

Cushions vibration and reduces noise.

Fallshaw blue rubber castors

High resilience. Quiet operation.
Shock absorbing.

Whether you're moving equipment through workshops, warehouses, schools, stadiums, commercial facilities or hospitals, the right castor makes all the difference.

Fallshaw's Australian-made high-resilience blue rubber castors are the ideal all-round solution for a wide range of environments. Engineered to deliver smooth, quiet and reliable performance across almost every floor surface, their elastic rubber tread absorbs vibration and impact to help protect transported goods while reducing operator fatigue.

Low rolling resistance makes pushing and pulling equipment easier, while the non-marking rubber helps protect floor surfaces. The result is effortless manoeuvrability and dependable performance wherever your equipment needs to go.

Performs exceptionally well on:

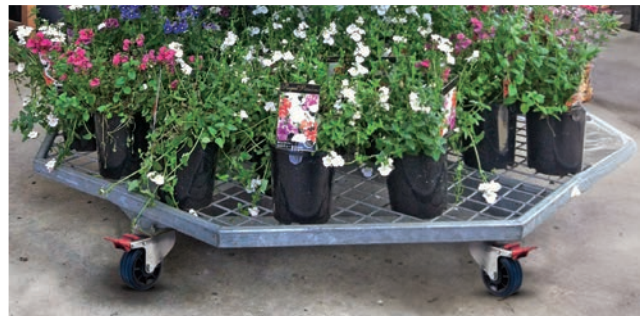

- Rough concrete.
- Smooth epoxy.
- Carpet.
- Tiles and vinyl.
- Bitumen.
- Outdoor pathways.

Key benefits:

- Superior shock absorption.
- Reduced vibration and operator fatigue.
- Quiet operation.
- Low rolling resistance for easier handling.
- Excellent traction across mixed floor surfaces.
- Improved protection for transported goods.
- Non-marking rubber to protect floor finishes.

Choosing the right blue rubber castor

Medium duty (M SERIES)

CBQ castors: 90-190 kg load capacity

Reliable and versatile all-purpose castors for high performance in everyday industrial and commercial applications.

Typical applications

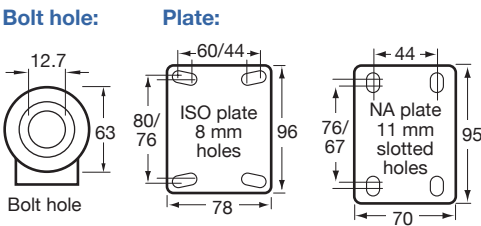

Stock picking trolleys, room service carts, medical equipment.

Available with

- 75, 100, 125 mm diameter wheels.
- Swivel plate, fixed plate or bolt hole forks —with or without brakes.
- Precision ball bearings and thread guards.

Wheel diameter (mm)	Load capacity (kg)	Mount height (mm)
75	90	106
100	120	135
125	190	161

General duty (J SERIES)

JBR castors: 150-180 kg load capacity

Tough general duty castors designed for higher load capacities with maximum performance on varied surfaces.

Typical applications

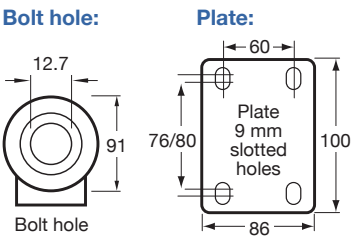

Industrial trolleys, work platforms, road cases.

Available with

- 100 and 125 mm diameter wheels.
- Swivel plate, fixed plate or bolt hole forks —with or without brakes.
- Roller bearings and optional thread guards.

Wheel diameter (mm)	Load capacity (kg)	Mount height (mm)
100	150	129
125	180	155

Heavy duty (O SERIES)

OBQ castors: 300-400 kg load capacity

Premium heavy duty castors for demanding applications with reduced vibration, low noise and excellent floor adaptability.

Typical applications

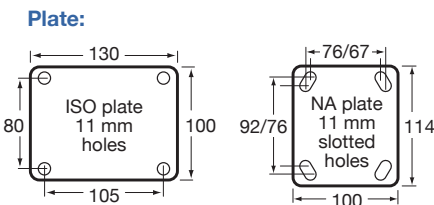

Linen and laundry carts, roll cages, bell carts.

Available with

- 100, 125, 150 and 200 mm diameter wheels.
- Swivel plate or fixed plate forks —with or without brakes.
- Precision ball bearings and optional thread guards.

Wheel diameter (mm)	Load capacity (kg)	Mount height (mm)
100	300	138
125	350	162
150	400	189
200	400	239

Why choose Fallshaw blue rubber castors?

Reduced vibration

The high-resilience rubber tread absorbs shocks and impacts from uneven surfaces, reducing vibration transmitted to equipment and operators for greater comfort and less fatigue.

Quiet operation

The elastic rubber tread significantly reduces noise on hard floors, making these castors ideal for hospitals, healthcare facilities, hotels, schools, offices and other noise-sensitive environments.

Outstanding versatility

Engineered to perform across almost every floor surface, including rough concrete, bitumen, polished epoxy, vinyl, tiles, carpet and outdoor pathways.

Smooth, effortless manoeuvrability

Low rolling resistance means less force is needed to start and maintain movement, even with heavy loads.

Better protection for transported goods

The cushioning properties of high-resilience rubber helps reduce impacts and vibration, protecting delicate equipment and valuable goods during transport.

Non-marking rubber

Premium non-marking rubber helps preserve floor finishes by preventing scuffs and marks.

Premium materials

Manufactured using a high natural-rubber content compound for superior resilience, excellent abrasion resistance and long service life.

Corrosion-resistant forks

Fallshaw's proprietary Core Coat™ protective finish provides exceptional corrosion resistance, achieving zero white or red rust after 150 hours of salt spray testing.

Australian made quality

Proudly designed and manufactured in Australia, and backed by a 3-year warranty.

Independently tested

Tested to ISO 22881:2004 to verify performance, durability and safety for demanding applications.
